Thursday 17th November 2022

Dear Parents and Carers,

Thank you to all those who were able to attend the Maths Workshop for parents and carers on Wednesday 16th November. We were overwhelmed with the turn out.

There is so much that could have been covered and for a lot longer too! But, hopefully in the very short timeframe we had, you feel you have got something from it.

If anyone can provide some feedback on the workshop, this would be gratefully received - <https://forms.office.com/r/KxzVP3G4pq>

The feedback will also be used to advise us on what else you would like covered in the future to support your knowledge and understanding of how Maths is taught and how you can support at home.

Here are some key links to resources and guidance referred to during the workshop:

Calculation Policy for Addition and Subtraction

Calculation Policy for Multiplication and Division

1-minute Maths App – suitable for all year groups

Parent Videos - Maths with Michael. We watched 'Has Maths Changed?' and most of 'Place Value'. I would recommend watching the other videos, however the calculations modelled are for slightly older children.

Parent Guides - Each video in the 'Maths with Michael' series comes with a 'Parent Guide'. A link for each guide can be found next to each video. Below is a link to the 'Place Value Parent Guide'

Free workbooks to use at home - Years 1-6 available
